DOUBLE FEATURE AT GRECIAN. "The Return of Helen Rolmond," a ew kind of society drama in two reals

new kind of society drama in two reals and "Two Many Brides," a Keystone comedy, is the double feature bill at the Grecian today. Each one separately would be a feature on any program, but both on the same bill makes it doubly interesting.

"Our Mutual Birl" will make her initial appearance at the Grecian Friday. This will be the first of a series of fifty-two pictures, one each week, each one a separate and complete story, each one showing the newest fashlons. The fashlon scene in the first reel, which will be shown Friday, was made at the establishment of "Lucile," the most fashlonable and exclusive drassmaker in the world. "Our Mutual Girl" is claimed to be the most interesting and novel series of pictures ever made. You cannot effort to miss a single gue of them. of pictures ever made. You cannot afford to miss a single one of them, Don't forget the first one will be shown at the Grecian Friday and Saturday. And whatever you do, see the Grecian program today. Advertisement

"THE STREET SINGERS," BIJOU.
"The Street Singers," a two-part Vitagraph social, will be featured at the
Bijou today. This play is a comedy
drama with a bit of burlesque running
through it that makes it very attractive. The scenes are well pictured and
the principals, including Littian Walker,
throw-sufficient spirit into their acting
to make it an excentionally entertaining offering. Dop't miss a Vitagraph
special, as they are always good.
Thursday, "John Bunny" and "Broncha Billy" in "The Misalventures of a
Alighty Monarch," and "The Refemption
of Broneho Billy," will be on the bill.—

STEAMER COULD

GO THROUGH CANAL

Recause Panama Work Is Practically Finished, Cot. Goethala Abolishes Two Construction Divisions. Two Construction Divisions.

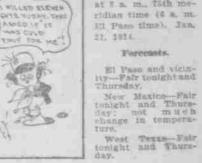

Penama, Jan 21.—The Panama canal has reached such a condition of completion that a large ocean steamer could now pass through, according to a statement by Col. George Goethals. There is 20 feet of water through the Catelora cut, and it is Col. Goethals's intention to send a Panama railroad steamer through the canal in April.

A circular order issued by Col. Goethals today, to go into effect Feb 1, abeliables the Atlantic and Pacific divisions of the canal construction because of the nearness of completion of the work. H. C. Cole, engineer in charge of the Pacific division, will resign on that day. Lieut. Col. Wm. L. Sibert of the U. S. corps of engineers, concrete construction engineer at Gatun locks, also loses his engineering only the electrical instalation and clearing up remaining to be finished.
